*Training Seminar on
“Methodologies and
procedures of definition,
gathering, elaboration and
presentation of Info&Data for
QA of SPs: experiences and
best practices”*

**Barcelona
Spain
12-14 November 2014**

The aim of the seminar is to introduce experiences and best practices of the EU partners of the project on methodologies and procedures for the management of the documentation for QA of SPs and for monitoring of the perceived quality.

The seminar is articulated in six main sessions and two workshops, devoted to discuss the topics developed during the sessions. A further session is devoted to the presentation of the methodologies and procedures for the online documentation for QA and the online monitoring of perceived quality of SPs.
